I understand that by signing below, I have released Doubletree Horse Farms, Carl Wood, employees, or anyone connected with this program, from any blame in case of an accident. I fully understand that working with and around horses is dangerous and I take full responsibility for myself in this regard. I also agree that if I do attempt to bring anyone into a suit, that the losing party will pay the attorney and court costs of the other party. I have also read and understand the "limitations of liability" in the state of Colorado concerning equine professionals.
